

WEB PROGRAMMER

Distant Village Packaging is an exciting and rapidly growing international company specializing in custom hand-made packaging for fine chocolates, tea/coffee, jewelry, gifts and other specialty markets. Our US-based packaging design team works closely with international artisans. Distant Village Packaging is committed to eco-friendly and sustainable development and is a passionate contributor toward the communities and people we work with.

We have exciting programming assignments for a **WEB PROGRAMMER** to develop web-based programs for this global business.

This opportunity is well suited for a self-starter who enjoys new challenges, variety, and able to work independently. You will need to provide examples of previous website and database development work.

Project Description:

Develop a new web-based database, interfaces, and user screens for a price estimation system with interfaces for customer inquiries and supplier data entry. The system will also allow for secure logon and user administration.

Requirements:

- n-Tier architecture web development using Microsoft technologies
- Object oriented analysis, design and development
- Microsoft .Net Framework, JavaScript, ASP.Net, VB.NET, HTML, DHTML, XML, SQL Server 2005, including stored procedures, DTS packages, triggers
- WordPress Website Development
- Strong problem solving and analytical skills.
- Self-starter that takes initiative and works fast to meet deadlines is a must
- Excellent English: written and verbal communication skills

For immediate consideration please send resume to jobs@distantvillage.com, with subject *Website Programmer*.
