facestock

Tree-Free Paper

Our face-stock is sourced from sustainable & wild-harvested materials. Wild Grass Papers are made using sustainable materials and methods. These papers are completely tree-less, exceptional quality, with distinctive characteristics. These papers are made using natural abundant and renewable sources of wild grass from the hills mixed with abaca fiber. We use only natural materials in our handmade paper. No tree pulp is used in the paper-making process in order to preserve the environment. The result is a very distinctive tree-less paper.

Community Development

Planting the seeds of opportunity, one scholarship at a time. The Distant Village Scholarship Fund provides workers' children financial support for tuition, school supplies, books, and related education expenses. We offer all of our customers a chance to participate in this program.

Fair Trade Manufacturing

Good for the environment, good for the community. All of our products are manufactured by the best-of-class artisans under fair trade conditions. This means that our artisans are well compensated, paid in advance for their work and guaranteed excellent working conditions. It is a relationship based on dialogue, transparency and respect.
